**FOR IMMEDIATE RELEASE**

## **END II END ANNOUNCES CITRIX AS ALLIANCE PARTNER**

**CHARLOTTE, N.C., July 19, 2004--** End II End Communications, Inc. (End II End), a leading provider of intelligent security software for simplifying enterprise networks, today announced an Alliance Partnership with Citrix Systems, Inc. (Nasdaq:CTXS), the global leader in access infrastructure solutions

The partnership secures End II End's Charter membership in the Citrix Alliance Partner program and will allow End II End to leverage the global growth of the Citrix enterprise access infrastructure market. As a Charter member, End II End will have access to Citrix products, technical support, as well as marketing and sales opportunities to engage Citrix channel resources (over 5,000 solution advisors) and customer base (over 120,000 companies).

For End II End, this partnership will serve to accelerate channel growth and customer acquisition. According to Todd Anderson, End II End's CTO, "The End II End solution is the perfect compliment for Citrix as our VPN enables Citrix to run securely over broadband satellite." Added Anderson, "To our knowledge, no other VPN on the market enables enterprise applications, such as Citrix, over satellite. We anticipate rapid growth in sales opportunities as partners and customers realize how Citrix and the End II End solution can securely extend their enterprise to even the most remote office".

### About End II End Communications, Inc.

End II End Communications Inc. is pioneering Intelligent Security Software for Simplifying Enterprise Networks. End II End's products and services enable corporations to "*Extend Your Enterprise*" with simple, secure, efficient and cost-effective WAN architecture. The End II End Solution uses the company's Broadband Network Optimization® (patent pending) on a single, integrated, secure platform to provide the only IPsec VPN to run over broadband VSAT at full wire speed, while delivering true Global coverage for the corporate WAN. End II End founded in September of 2001 is headquartered in Charlotte, N.C.
