FOR IMMEDIATE RELEASE

GLOBAL SATELLITE EXECUTIVE JOINS THE END II END TEAM

CHARLOTTE, N.C., November 15, 2005, -- End II End Communications, Inc. (End II End), a leading provider of network security and optimization software for terrestrial and satellite Wide Area Networks (WANs), today announced that seasoned satellite industry veteran, Doug Triblhorn, has joined End II End's management team as Vice President of Sales.

Triblhorn will spearhead End II End's sales efforts, including its penetration of the U.S. and overseas markets. According to Triblhorn, "End II End's revolutionary software products are poised to play a dominant role in how satellite IP networks are deployed and managed. I am extremely excited to be part of the End II End team and have great confidence that my international experience in the satellite industry will increase the speed in which End II End establishes its position as a global leader for value-added services."

"It is with great pleasure that we announce the addition of Doug Triblhorn to our management team," said John Dwyer, CEO of End II End. "As value added services continue to gain momentum in the satellite world, his presence will help solidify our leadership in this strategic area."

A 17-year satellite industry veteran, Triblhorn has held key senior level positions in both France Telecom and Intelsat where he has overseen all commercial and operational aspects of business. He is an accomplished management executive and business strategist with specialization in telecom, broadcast, and satellite.

While at France Telecom, Triblhorn was CEO of GlobeCast Asia and pioneered its rapid growth of from a small representative office of few employees to a staff of over 30 with offices in Singapore, India, and Japan. He was a member of the company's global executive committee, responsible for setting worldwide strategy and direction, and sat on the Board of Directors for the company's subsidiary, GlobeCast Australia.

In 2003, Triblhorn joined Intelsat's senior leadership team in Asia as Vice President, Sales and quickly helped Intelsat grow from its established position in data and broadened its market to include video and IP distribution across key Asian markets.

Most recently, as President of Zapma, LLC, he served as an advisor to operators, service providers, broadcasters and enterprises.

About End II End Communications, Inc.

End II End Communications, Inc. (End II End) is a leading provider of network security and optimization software for terrestrial and satellite Wide Area Networks (WANs). The company's patent-pending optimization and management technologies are the foundation for our breakthrough Gateway Security and Optimization software which delivers maximum security and performance for ALL enterprise applications

over terrestrial and satellite networks. Customers such as **BASF**, **Jordache** and **National Gypsum Company** use our unique software to slash their IT spending while enhancing network security and performance. Service providers use End II End's software to sell high-margin, turnkey managed services such as IP VPN, Firewall, Intrusion Detection (IDS), Network Management and Reporting, Network Monitoring and Business Continuity. End II End was founded in 2001 and is headquartered in Charlotte, NC.
